About IJI

The International Journal for Infonomics (IJ) is a peer reviewed quarterly publication. The IJI provides an international forum for electronic publication of high-quality scholarly papers in all areas of Digital Society and Green Computing. The scope of the IJI encompasses all aspects of the e-society (information economics, security, etc.) as well as cross-disciplinary topics and advanced applications.

ISSN 1742 4712 (Online)

Contents

Pages

Machine Learning Email Prediction System (MLEPS) <i>(Taiwo Ayodele, Shikun Zhou, Rinat Khusainov)</i>	345 - 349
Intelligent Traffic System: Road Networks with Time-Weighted Graphs <i>(Hatem F. Halaoui)</i>	350 - 359
This is my Body: the Uses and Effects of the Avatar in the Virtual World <i>(Marc Conrad, Jo Neale, Alec Charles)</i>	360 - 368
Turning Immigrants to Citizens: Merits of the pedagogical shift in 3D Virtual Learning Environment <i>(Noha Saleeb, Georgios Dafoulas)</i>	369 - 381
A Discussion on Social Software: Concept, Building Blocks and Challenges <i>(Roberto Pereira, M. Cecilia C. Baranauskas, Sergio R. P. da Silva)</i>	382 - 391
Single-trial Classification of Viewed Characters using Single-channel EEG Waveforms <i>(Minoru Nakayama, Hiroshi Abe)</i>	392 - 400
Solutions and Challenges for the Development of a Mobile Social Network <i>(Claudia Becker, Peter Rothenpieler, Stefan Fischer)</i>	401 - 403
Enhancing Privacy in Mobile Collaborative Applications By Enabling End-User Tailoring Of The Distributed Architecture <i>(Mohamed Bourimi, Bernd Ueberschär, Marcel Heupel, Dogan Kesdogan, Thomas Barth)</i>	404 - 413
Re-conceptualizing Information Systems Models: An Experience from ERP Systems Environment <i>(Ahed Abugabah, Louis Sanzogni)</i>	414 - 421
Coupled Solution of Boltzmann Transport Equation, Maxwell's and Navier Stokes equations <i>(Rajveer S Yaduvanshi, Harish Parthasarathy)</i>	422 - 426
